

Natural resources are things in nature like air, water, trees, and energy. We use natural resources everyday. Even though they are all around us and free, we need to make sure we are using them wisely.

## Step 1: Discover Resources

Did you have juice or water with your breakfast? Both came from nature! Can you name 5 other things you've used today that came from nature?

## Step 2: Find a Resource

What is your favorite animal here at the Aquarium? Draw a picture of it below. What things from nature does it need to live? Add those things to your picture.

A large, empty rounded rectangular box with a black border, intended for drawing a favorite animal and its natural resources.

## Step 3: Reduce, Reuse, Recycle

Do you want to be on the Aquarium's Green Team? Look for all of the ways we are earth friendly. Circle the ones you spot below.

Compost Bins

LED light bulbs

Low flow faucets and toilets

Recycling Bins

Recycling & Other "Green" Signs

Paper Shopping Bags

## Step 4: Make a Pledge

Talk with your family or troop leader. What are 3 ways you can conserve resources at home? Get your parents' permission and then make a pledge to practice them for at least 1 week.
