

## SPRING 2023 NEW GALLERY DOCENT TRAINING

New gallery docent training combines interactive classroom sessions and hands-on experimentation/role play at Aquarium exhibits. There are seven sessions, and you are required to attend them all. In addition to an overview of the “day in the life of a gallery docent,” you will be introduced to the Aquarium’s main exhibits: Upland and Coastal River, Chesapeake Bay Gallery, Restless Planet, Ocean Pavilion, Touch Pools & Chesapeake Bay aquariums. Facilitators will also share tips and basic techniques to help you connect with and share exhibit content with Aquarium guests.
